OUR PORTFOLIO

We write marine risk and catastrophe products for clients with whom we aim to build long-term business relationships.

Classes and client base

London Market

We write a broad range of marine programmes for small to medium-sized Lloyd's syndicates, each of whom has an established track record with us.

Global Foreign

This comprises larger clients with broad-based global marine accounts. We generally have long associations with these clients, who are typically based in major commercial centres worldwide.

Indigenous Foreign

We have grown this account on a selective basis to target clients with books of business that do not clash with the remainder of our excess of loss account.

US Account

This is a book of core clients, mainly based in New York, whose accounts typically comprise hull and cargo business. We aim to target risks with a limited Gulf of Mexico exposure.

Business mix 2010

CHAUCER HOLDINGS PLC

Chaucer Holdings PLC is diversified insurance group. We underwrite business at Lloyd's, the world's leading insurance and reinsurance market.

Our business

We are an independent business, built on underwriting expertise.

We are committed to underwriting excellence and our objective is to build a leading Lloyd's insurer.

We deploy specialist underwriters in over 28 major insurance and reinsurance classes, balancing global marine, energy, non-marine and aviation with UK motor and nuclear.

Our underwriters work hard to position themselves uppermost in the thoughts of brokers and clients seeking to place or renew

business. Our strategy is to be a leading underwriter within each major class of business that we write.

We support underwriting with a highly qualified and professional claims team, which has extensive Lloyd's marine and non-marine claims management experience.

We are also market leaders in turnkey solutions, which provide a practical solution for investors seeking a Lloyd's presence but not wishing to have a standalone managing agent.

Headquartered in London, we have international operations in Copenhagen, Houston and Singapore to provide access to high quality business worldwide.
