

Top company for graduates for the fourth year running

We at Chaucer, the specialist Lloyd's insurance group, are delighted to be voted as the 'Top Company for Graduates to work for 2016/2017 in Accountancy and Insurance in the smaller employer category' for the fourth year in a row by The Job Crowd, the UK's leading graduate job review website. We were also extremely proud to have won the 'Best Support' Award in the smaller employer category.

The Job Crowd identifies the top graduate employers from over 6,000 reviews submitted by graduates in over 300 companies.

Through a series of specialist placements across the business, our Programme aims to develop graduate expertise in every area of underwriting, including risk selection, pricing and placement, account management and reinsurance.

The Award Ceremony took place at the Lancaster Hotel in London, and Catriona McCaughey, Talent and Development Consultant, and Anna Hargrave who is on our Underwriting Graduate Programme, attended to represent Chaucer.

Anna Hargrave, Graduate Programme member said:

"I was keen to find a relationship based role in a Lloyd's syndicate, where I could apply my numerical background and also have the opportunity to make decisions. Chaucer's Underwriting Graduate Programme has enabled me to achieve this. The rotational programme has allowed me to gain exposure to different classes of the business and this has helped me to understand the market. I have also received invaluable support for my insurance studies'.

Catriona McCaughey, Talent and Development Consultant added:

"We are delighted to have picked up this award for the fourth year running. It is a proud moment to be recognised for our Graduate Programme and I want to say a huge thank you to all our Graduates for their feedback and everyone involved in making our Graduate Programme a resounding success".
